

# ISAI COMMUNICATION 12

## Changes to ISAI Rules and Regulations

The Board of the Directors of the Ice Skating Association of Ireland (ISAI) informs members of changes to Sections 500, 700 and 800 of the ISAI Rules and Regulations.

In **Section 500 (Figure Skating Test Structure)**, the separate Adult Test structure has been discontinued. All ISAI members, regardless of age, will now test under the same testing structure. In addition, the process for ISAI members to transfer test levels passed within another ISU member federation to equivalent ISAI test levels has been streamlined.

In **Section 700 (Competitions)**, a clarification has been included as to which international competition entries are made by the ISAI Board for national team members.

In **Section 800 (National Selection)**, the deadline for national team selection by the ISAI Board has been moved from 1 June to 1 July. Changes have been made to allow greater flexibility in how to screen a skater unable to fulfil 803.1(2) due to exceptional circumstances. There is now also a requirement to have signed an athlete agreement before selection to the national team.

The ISAI Board advises all members to familiarise themselves with the updated rules.
